suggesting that the results in the
or the clinician and basic scientist
. However, many of the chapters
ms of cancer biology and therapy.

The Editor

Acknowledgments

The chapters which comprise this volume were presented at the Second Symposium on Advances in Neuroblastoma Research held at The Children's Hospital of Philadelphia in May 1979. The purpose of the meeting was to update the advances in current laboratory and clinical research that have occurred since the 1975 conference. In particular, the exchange of ideas between the clinician and laboratory scientist contributed to a better understanding of the problems of patients and the complexities in laboratory research. In addition, the organizers invited a small number of experts in various fields to provide insight into the biology of neuroblastoma and suggest tools for its study. The conference was successful, and the resulting volume is a unique collection on neuroblastoma research.

The editor wishes to thank all those who participated in the conference and regrets that much of the excellent discussion had to be curtailed. I would like to thank the members of the organizing committee, Drs. Green, Hummeler, and Seeger for their help in planning the program and moderating the sessions. The additional session chairmen, Drs. Knudson, Littauer, and Baserga, were invaluable for their leadership in the discussion and their syntheses of it for publication. Finally, I would like to thank Mrs. Goldberg for her assistance in organizing the conference and Mrs. Seelye for editing the manuscripts.

Contents

DISEASE CHARACTERISTICS IN MAN

- 3 Natural History of Neuroblastoma
Audrey E. Evans
- 13 The Neurocristopathy Concept: Fact or Fiction
R. Neil Schimke
- 25 Patterns of Urinary Catecholamine Metabolite Excretion in Neuroblastoma
Stuart E. Siegel, Walter E. Laug, Paul J. Harlow, Kenneth N. F. Shaw, Benjamin Landing, and Morris Gutenstein
- 33 Serum Catecholamine Metabolites in Stage IV Neuroblastoma
William Krivit, Bernard Mirkin, Esther Freier, Mark Nesbit, and Mehroo J. Cooper
- 43 Ferritin and Cancer: Study of Isoferritins in Patients with Neuroblastoma
Hie-Won L. Hann, Howard M. Levy, and Audrey E. Evans
- 49 Discussion

GENETICS

- 55 Why the Genetics of Neuroblastoma
Alfred G. Knudson, Jr.
- 59 Genetic Regulation of Malignancy in Human Neuroblastoma Cell Hybrids
Fred Gilbert and Gloria Balanban-Malenbaum
- 73 Cytogenetic Studies of Primary Human Neuroblastomas
Garrett Brodeur, Alexander A. Green, and F. Ann Hayes
- 81 Human Neuroblastoma Cytogenetics: Search for Significance of Homogenously Staining Regions and Double Minute Chromosomes
June L. Biedler, Robert A. Ross, Sara Shanske, and Barbara A. Spengler

- 97 Relationship Between Homogeneously Staining Regions and Double Minute Chromosomes in Human Neuroblastoma Cell Lines
Gloria Balaban-Malenbaum and Fred Gilbert
- 109 Chromosomal Findings in Patients with Neuroblastoma
Paul Moorhead and Audrey E. Evans
- 119 Discussion

CELL DIFFERENTIATION

- 125 Introduction
Uriel Z. Littauer
- 127 Molecular and Cellular Aspects of Chemical Neuro-oncogenesis
Manfred F. Rejewsky
- 135 Control Mechanisms of Malignancy and Differentiation in Cultures of Nerve Cells
Kedar N. Prasad
- 145 Adenosine 3':5'-Monophosphate(cAMP) Levels and Characteristics of cAMP-Dependent Protein Kinases in Human Neuroblastoma
Shinsaku Imashuku, Miligan C. Fossett, III, Alexander A. Green, and F. Ann Hayes
- 151 Neurotransmitter-Synthesizing Enzymes in Human Neuroblastoma Cells: Relationship to Morphological Diversity
Robert A. Ross, Tong H. Joh, Donald J. Reis, Barbara A. Spengler, and June L. Biedler
- 161 Serum-Free Culture of Neuroblastoma
Jane E. Bottenstein
- 171 Glycoproteins Associated with Differentiating Neuroblastoma Cells in Culture
Mary Catherine Glick, Maria Y. Giovanni, and Uriel Z. Littauer
- 177 A Surface Glycoprotein as a Human Neuroblastoma Antigen Detected by Monoclonal Antibodies
Mariko Momoi, Roger H. Kennett, and Mary Catherine Glick
- 183 Production of Sulfated Glycosaminoglycans by Human Neuroblastoma Cell Cultures
John T. Gallagher, I. N. Hampson, and Shant Kumar
